TRENDS FOR SPRING/SUMMER 2025

Color themes:

liquid light – vibrant spirit – radiant glow

LANG

Y A R N S

Filigree lace patterns in light and airy yarns predominate throughout the LIQUID LIGHT part of the collection. Inspired by light reflections playing over still waters, and cooling water on a sunny summer's day, the array of colors is a broad palette of blue tones, along with summery orange and soft yellow.

Think airy, loose-cut tops with easy to knit eyelet patterns, textured cardigans as layering pieces and striking skirts and dresses.

LANG

Y A R N S

Under the rubric **VIBRANT SPIRIT** we bring together luminous shades of all the colors of the chakra. Think of deep violets and natural greens as well as shimmering, multi-colored yarns. In this part of the collection you will find the color to match every energy.

From bags to tunics, cardigans and tops – the strength of these pieces lies in saturated colors and sophisticated details.

LANG

Y A R N S

Inspired by the breathtaking hues of a sunset, the palette ranges from delicate rosé pink to vivid shades of orange, red and pink. An abundance of cables and false cable patterns adorn the RADIANT GLOW part of the collection, adding extra brilliance to both the yarn and the wearer.

Think simple shapes, light sweaters with great attention to detail, body-hugging strappy tops in summery yarns and high fashion pieces in bold colors with three-dimensional textures.

LANGYARNS ANANAS

- 70% Lyocell 30% other fiber (pineapple)
- 50g/approx.150m (164yds.)
- needles size 4-4.5, US 6-7, UK 8-7
- 20stitches/28rows - 10cm x10cm (4"x 4"), Worsted
- 26colors

The pineapple fiber in this yarn is obtained from the leaves of the pineapple plant, which would ordinarily be considered as waste and often burned. The fibers used are processed using sustainable methods, without the use of bleach. Instead of using harmful chemicals, an enzyme process is used to wash away contaminants and the rest of the process is completely mechanised to minimize the environmental impact.

The pineapple fibers give the yarn a slightly rustic look and feel, without being scratchy, while the Lyocell lends a subtle sheen. The yarn is particularly suitable for eyelet lace patterns and it is naturally breathable.

LANGYARNS BABY COTTON NATURALLY COLORED

- 100% cotton (organic)
- 50g/approx.180m (197yds.)
- needles size 2.5-3, US 1.5-2.5, UK 12-11
- 25stitches/34rows - 10cm x10cm (4"x 4"), Sport
- 7colors

The thought behind BABY COTTON NATURALLY COLORED is, as the name says, to use cotton fibers in the colours that can be grown naturally, and not dyed.

Cotton occurs naturally in three different shades – green, ivory and brown – grown from seed varieties neglected for decades due to intensive production and the demand for ecru cotton. The high quality yarn produced as a result represents a saving in water consumption of up to 90 %, compared to conventional cotton.

Because the colour is as grown, and not dyed, the yarn is exposed to fewer chemicals that could potentially irritate the skin, which makes this yarn particularly good for babies and people with sensitive skin - but not only for them, of course.

We offer a palette of 7 shades, all created by plying together the three base colours of green, ivory and brown.

LANGYARNS BABY COTTON NATURALLY COLORED

Background information:

Inspired by ethical and sustainable projects, Santi Mallorquí'Gou, the CEO of OCC (Organic Cotton Colours), began growing a range of natural colours of cotton fiber in Northeast Brazil in 1992. Since then, the project has grown to include over 400 farming families.

All of the participants in the project and their families enjoy the benefit of economic stability. In addition, 10 % of the value of the cotton is reinvested to improve the production systems within the community.

With the focus on regenerative farming practices, this cotton is grown alongside up to five foodstuffs, which also provides natural fertiliser for the soil. The process is pesticide-free, uses no machinery, no genetically modified seeds, and relies exclusively on rain water for irrigation.

The cotton is traceable, with transparency and accountability guaranteed throughout the supply chain.

LANGYARNS ILLUSION

- 55% cotton 45% viscose (bamboo)
- 100g/approx.270m (295yds.)
- needles size 3.5-4, US 4-6, UK 10-8
- 22stitches/31rows - 10cm x10cm (4"x 4"), DK
- 7colors

ILLUSION, a mix of cotton and bamboo viscose, stands out for its unique color effect. Each strand is printed separately with the same dye repeat, before being twisted together, which produces ever-changing combinations of color throughout the yarn. When knitted or crocheted, this mouliné construction creates a fabric with even colour distribution and a shimmering, almost hypnotic effect, similar to a mirage.
