A close-up photograph of various sewing supplies. In the foreground, a pair of scissors with iridescent, rainbow-colored handles is partially open. Behind it, several sewing pins with colorful, spherical heads (white, green, pink, yellow, red, orange) are scattered on a light-colored surface. The background is softly blurred, showing more pins and a green fabric piece.

The World's most
**Dynamic and
Comprehensive**
range of
Haberdashery

Hemline

A World-Class Brand

- Over the past 30 years, Hemline has clearly established itself as a **WORLD LEADING HABERDASHERY BRAND**.
- Sold in over 50 countries worldwide, with over 100,000 Hemline products being produced in our own factories daily.
- In-house R & D department, Sewing Testing Division, large product development team and consultancy arrangements with leading experts in the sewing field, ensure Hemline quality is maintained at a very high standard with continuous product innovation resulting in a stream of new product.

NEW

Over 300 New Products

- This catalogue features **OVER 300 NEW PRODUCTS** or revisions from the previous version. Look for the **"NEW"** icon highlighted on many pages.
- Special attention should be given to the Machine Needle and Hand Needle sections. Significant changes and improvements have been made in these key categories.

New World / New Look

- With this new catalogue, we are delighted to showcase Hemline with its **FRESH NEW LOOK**.
- We have strengthened the brand presence by reinvigorating the logo and the pack background while retaining the familiar and recognisable pink packaging with its clear format.
- **SEWAID** - Information on SEWAID, our chosen global charity, will now be included on most Hemline packaging. We want to provide a clear message to our consumers, that we care for and help people in poorer countries and communities by providing equipment and teaching them how to sew and to create small sewing workshops for themselves. Our aim is to empower them to add some real value and additional income to their families and communities. Details are available at **www.sewaid.com**.

Consumer Websites

Hemline

A website to support our brand.
Designed with consumers in
mind. Retailers will also find
this site useful.

www.hemline.com

- View the complete Hemline product range online.
- Extremely user-friendly, with easy access to product information.
- The first place to see new products.
- Instructional videos and other downloadable resources.
- Educational material on specialised products.
- Comprehensive product information for store staff to answer customer queries instantly!
- Feedback section for direct communication from consumers.

hemline.com

Consumer Feedback

- Hemline welcomes feedback. Via www.hemline.com consumers get in touch with us daily, helping us to add value to our range, allowing us to improve our products and to enhance usage experience. Consumers will often share tips and tricks with us which contribute to useful product development.
- All consumers who contact us through the site, will be replied to within 48 hours and many of them will receive a token gift from us as a reflection of our appreciation.

An Even Better

Hemline

Continued enhancement of on-pack product instructions is an ongoing and never ending passion for us. Our team at Hemline is constantly adding **NEW USAGE FEATURES** and **INSTRUCTIONAL VIDEO QR CODES** to our products. We engage with world renowned experts in the sewing field to refine and improve usage and care instructions, adding more value to our products and providing a better consumer experience.

Instructional diagram

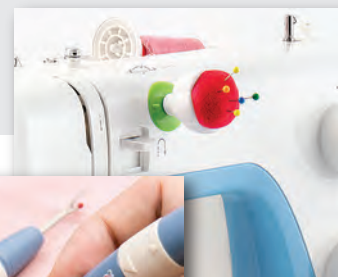

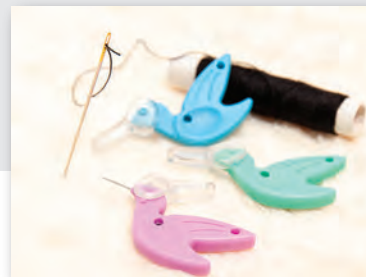

Video QR code

Minimising packaging waste is also a hugely important matter for Hemline. We have an ongoing program aimed at reducing card sizes and moving more products away from single-use throwaway packs to **RECYCLABLE MATERIALS** and **KEEPSAKE/REUSEABLE PACKAGING**.

CONTINUOUS INNOVATION

The Hemline product development process continues to add great new products to the range. Through feedback from consumers via our websites, ideas from our internal staff and our distribution partners throughout the world, new products are constantly evolving. We are passionate about sewing, always striving to improve our product offering.

Hemline
Proudly
Supports

www.sewaid.com
sewAID

Helping
impoverished
men and women
through sewing

**An international aid program proudly
supported by Sewgroup International / Hemline**

What is SewAid?

SewAid is a program which offers selected women in very poor countries the opportunity to not only learn to sew, but to also provide them with the machines, equipment and skills they need to start a small home business in dressmaking, alterations or repair.

The SewAid program is primarily a teaching program, which relies heavily on volunteer teachers with sewing or craft skills, who donate their time and expertise, as well as fund their own travel to each program.

The program is run by its founder, Mr Tony Castley and is closely supported by Sewgroup International.

SewAid relies on volunteers to participate in these programs. If you would like to volunteer as a teacher or donate visit sewaid.com

How does the program work?

In a typical program, a group of student applicants are selected, usually using the resources of a recognized aid agency or a local Rotary Club. These women are then given a sewing machine (usually new), a selection of suitable fabrics, and all the sewing accessories needed to get started.

A sewing instruction course is commenced, usually lasting approximately 8-10 days spread over a 2 week period. Teachers are volunteers from various countries who teach basic dressmaking skills for simple clothes, most suitable for sale in the local area. They also teach the basic skills of running their own business, how to sell their products, banking and bookkeeping.

SewAid sets up a training center where students practice their skills on their brand new Janome automatic sewing machines.

SewAid Success

Past programs have included Vanuatu, Mongolia, Indonesia, Philippines, Cambodia, Uganda, Madagascar, Solomon Islands and Papua New Guinea, which is fairly typical of the sort of community which SewAid supports.

How Hemline Helps!

Each and every year Hemline supports SewAid by fiscally contributing a portion of its revenue to Sewaid which allows Sewaid to buy the Sewing Machines and the supplies needed to run successful programs. Hemline will also donate annually considerable supplies directly to each program in the way of haberdashery and sewing machine product support. Plus Hemline is creating consumer awareness by promoting on SewAid Hemline cards directly. Consumers and retailers will notice this icon logo (below) on most Hemline cards, as this now forms part of the new Hemline look and global vision.

The Philippines 2012 Basic Class of 12 showing off their sewn shorts and modelling the fitted skirt and blouse they had all made. Considering that many of these students had never sewn before and many were illiterate, this was a fantastic result. All fabric was donated in bits and pieces.

NEW MACHINE NEEDLE RANGE

Klasse'

Superb new Colour Shank system

We are delighted to introduce coloured shanks as a new standard feature across the Klassé needle range. This outstanding and distinguishing new feature, is the only range wide colour system available. All Klassé needle point styles are now easily identifiable by consumers and retailers alike. The Klassé brand is now even more consumer friendly.

Universal - Standard Silver Tops

Ball Point - Black Tops

Stretch - Red Tops

Jeans - Blue Tops

Leather - Brown Tops

Sharps/Microtex - Green Tops

Quilting - Lime Green Tops

Embroidery - Purple Tops

Metalfil/Metallic - Yellow Tops

Top Stitching - Orange Tops

Anti-Glue Embroidery - Gun Metal Tops

With this new colour shank system, consumers will always know what style of needle they are sewing with. This colour system is completely unique to Klassé and Hemline needles.

Needle Shank Size Marking

Klassé: the first machine needle brand to provide range-wide shank colour referencing.

Klassé shanks are stamped with the needle size in both metric & imperial measurements.

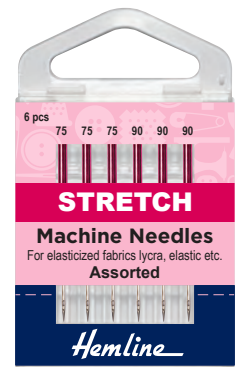

New Consumer Pack

Klassé is also introducing a new consumer friendly pack. Super lightweight one-piece design with a unique flip-top and sit function. Needles will simply slide in and out as required. This new pack is a world-first and cuts down on single-use plastic packaging, whilst keeping needles safe and secure and ready to use. So easy to store and use!

Retail space is expensive! From the retailer's perspective, the new compact pack enables retailers to stock a wider range of needles in the same space, generating more sales per metre/ft.

Now even "Better Value" for consumers

With this super new pack, Klassé has cut down on its use of packaging material and therefore also packaging cost. We are pleased to pass this saving on to consumers by including an extra needle in the pack. For the same price, each cassette of the core range will now have 6 needles included (no longer 5) and so consumers receive 20% more product for the same price.

The Klassé Website

Visit www.klasse.com for information about correct needle selection, and a wealth of educational material on Klassé machine needles. Subjects covered include the needles required by specific overlockers and sergers, the importance of changing needles regularly, the reasons for needle breakage and much more.

Use a twin with a narrow gap for pin tucking and wider gap for top stitching. NOTE: Twin needles should be sewn at a reduced speed.
- For two way stretch knits, Lycra, power net, silk jersey, spandex and other highly elasticised synthetic fabrics. The metric measurement is the size of gap between the needles.

Klassé Twin Needles Consumer Guide

Twin needles are set into a plastic block and because excessive heat is generated by the natural friction of sewing (thread, fabric, needle), this heat can cause the needle to sometimes fall out of the plastic block.

When using a twin needle for long stretches of sewing it is important that the machine speed is reduced to about half speed. For example, if a machine has a top speed of 1000spm (stitches per minute), then twin needle stitching should be done at 500spm.

Using a fine and smooth thread will also help to reduce friction. If sewing for long periods with a twin needle, pause regularly to allow the needles to cool down.

Because of the delicate nature of a twin needle it is important not to push or pull the fabric, as the twin needles are much more flexible than a single needle and can easily hit the stitch plate and break.

Twin Jeans 

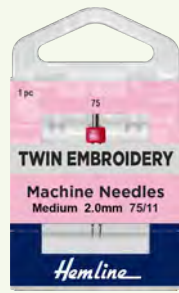

113.40
Size/Type 100/16 - 4mm
Qty 1
Pack 5

- Twin needles are designed for practical and decorative sewing such as pin tucking, seam finishes, top stitching etc. Select the type and size of twin needles best suited to the application. Use a twin with a narrow gap for pin tucking and wider gap for top stitching. NOTE: Twin needles should be sewn at a reduced speed.
- For denim fabrics, heavy twill, workwear and densely woven fabrics such as canvas and heavy linens.

9 317385 288185

- SES - Medium.
- Screw-in.
- Wattage 1.5W.
- Voltage 220V to 240V.
- E14.
- Brightness: 150 Lumens.
- Lifetime over 15,000+ working hours.
- Suits most Brothers Bernina (early models), Celestial, Globe machines.

ENERGY EFFICIENT AND MONEY SAVINGS.

Fine Point Tweezers

Fine Point
Tweezers
Fine point tweezers for overlockers and sewing machines, general craft and hobby use.

Hemline

141
Size/Type Fine Point
Qty 1
Pack 5

9 317385 001838

- Long tweezers ideal for use with sewing machines and overlockers.
- Excellent for general craft and hobby use.

Service Kit - Sewing Machine & Overlocker

3 pcs set

Service Kit
Sewing Machines & O / Lockers
Clean and service your machine regularly, for trouble free sewing.

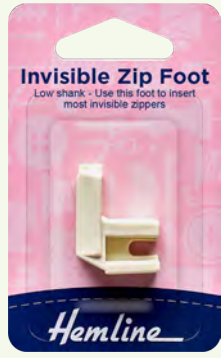

Hemline

145
Size/Type Brush & 2 Screwdrivers
Qty 1
Pack 5

9 317385 001852

- Use regularly to keep a machine operating at peak performance.
- Large soft brush cleans out the bobbin and feed teeth.
- Small screwdriver is for bobbin case tension adjustment.
- Larger screwdriver can be used more generally for making sure screws are always tight.

Invisible Zip Foot

162
Size/Type Low Shank
Qty 1
Pack 5

- Use to insert invisible zippers.
- Suits most modern sewing machines with a low shank type zipper foot.
- Solid construction guides zipper accurately and precisely.

Cone Adaptor

165
Size/Type Plastic
Qty 1
Pack 5

- Enables large cones to be used on domestic sewing machines.
- Fits inside base of the cone and adapts it to fit the sewing machine spool pin.

Bulky Seam Aid

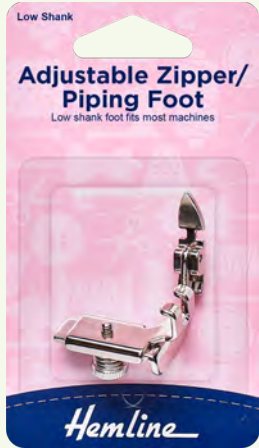

138
Size/Type Low shank
Qty 1
Pack 5

- Help sew over bulky seams, on jeans or other thick layered fabrics.
- Keeps the presser foot horizontal to help feed thick layers evenly and stitch consistently.
- Has two widths for use with different thicknesses of fabric.

Adjustable Zipper / Piping Foot

161
Size/Type Low Shank
Qty 1
Pack 5

- Fully adjustable for sewing left or right side of the zipper.
- Narrow foot design allows sewing close to zipper teeth.

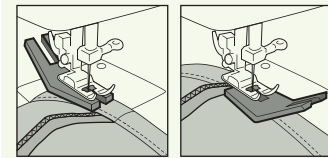

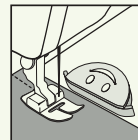

Magnetic Seam Guide

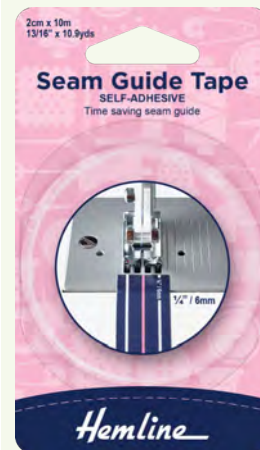

190
Size/Type Plastic
Qty 1
Pack 5

- Attaches magnetically to a machine's stitch/throat plate.
- Ideal for obtaining an accurate seam width and as a guide to straight stitching.

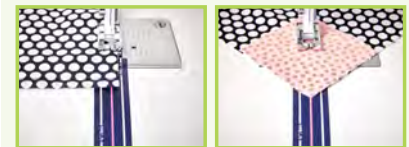

Seam Guide Tape

193
Size/Type 2cm x 10m / 13/16" x 10.9yds
Qty 1
Pack 5

- No more drawing sewing lines.
- Use the white lines on each side for a perfect 1/4" (6mm) seam.
- Also ideal for making half square triangles.

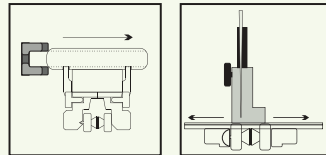

Invisible Zipper Roller Foot Set

163
Size/Type Low slant & high shank
Qty 5pcs set
Pack 5

- Selection of 5 roller feet for inserting invisible zippers.
- Suits a wide range of sewing machines with low slant, high shank, or clip on zipper feet.

Machine Oil

155
Size/Type 20ml / 0.67 fl oz
Qty 1
Pack 5

- Fine quality.
- For sewing machine & general use.
- Non-toxic.
- Non-corrosive.

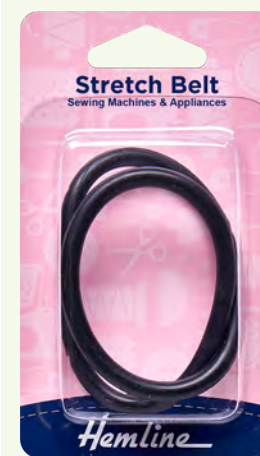

155.125
Size/Type 125ml / 4.20 fl oz
Qty 1
Pack 5

- Non-toxic & non-corrosive.
- Protects metal parts from damage and rust.
- All-purpose high quality lubricate oil.
- Special formula for sewing / knitting / embroidery machines.

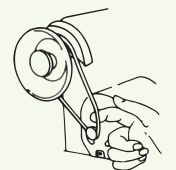

Stretch Belt

150
Size/Type 6mm / 1/4" diameter
Qty 1
Pack 5
Colour Black

- Multipurpose rubber belt that fits most machines with external motors.

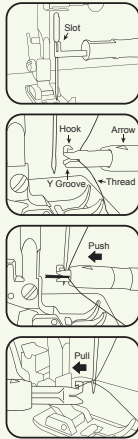

Sewing Machine Needle Threader

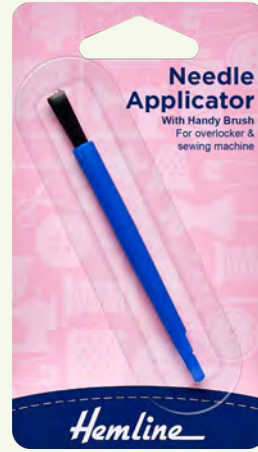

136
Size/Type Dual use
Qty 1
Pack 5

- Holds a machine needle steady and vertical to make fitting a new needle much easier.
- Threading the needle on sewing machine takes mere seconds.
- Can be used to thread twin needles.

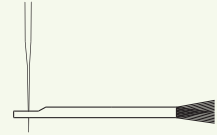

Needle Applicator

135
Size/Type Combined Tool
Qty 1
Pack 5

- Holds a machine needle steady and vertical to make fitting a new needle much easier.
- With handy cleaning brush.
- For sewing machines and overlockers.

Thread Nets

Thread Nets
Anti-Tangle
 Elasticized nets which fit snugly over thread cones to prevent thread from falling down and tangling. Also helps to maintain thread tension for the machine.

143
Size/Type 11cm
Qty 5
Pack 5
Colour White

- Helps to keep overlocker/serger threads tangle-free and clean from lint.
- Makes it easier to maintain a consistent thread tension when stitching.

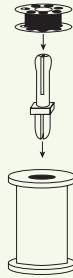

Bobbin / Thread Match Mates

137
Size/Type Plastic
Qty 12
Pack 5

- Clever design.
- Stores filled bobbin and matching thread spool together.
- Suits most plastic and metal bobbins.

Double Cone Thread Holder

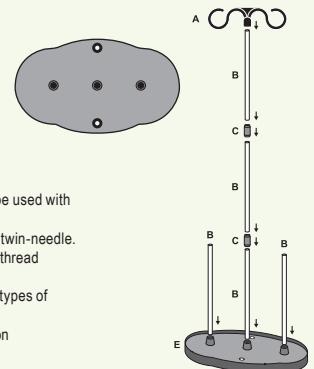

Double Cone Thread Holder

- Enables large size cones to be used with standard sewing machines
- Double cone design ideal for twin-needle
- Suitable for 1000m – 5000m thread cones
- Fits any cone size and for all types of cone threads
- Stable and sturdy construction
- Easy to install

N4059
Size/Type Steel pole, with base
Qty 1 set
Pack 3

- Enables large size cones to be used with standard sewing machines.
- Double cone design ideal for twin-needle.
- Suitable for 1000m – 5000m thread cones.
- Fits any cone size and for all types of cone threads.
- Stable and sturdy construction
- Easy to install.

Extra Long Threaders

140
Size/Type Needle & Looper
Qty 2pcs set
Pack 5

- Extra long needle threader for overlockers and sewing machines.
- Fine looper threader for overlockers.

Extra Strong Polyester Thread

238.100.BK
 Size/Type 100m / 110yds
 Qty 1
 Pack 5
 Colour Black

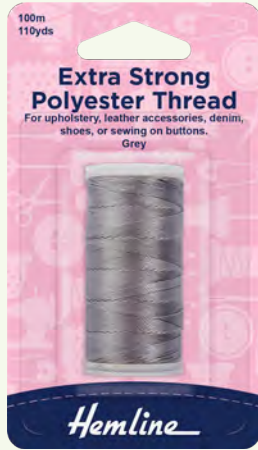

- For upholstery, leather accessories, denim, shoes, or sewing on buttons.
- 100% extra strong polyester filaments 30# (250D/3).
- High tenacity, tearproof and good wear resistance, such as corrosion and mildew.
- Reduce thread breakage and thread replacement during sewing.

238.100.CM

Hand Needles Size Tips:

Smaller size numbers are for thicker fabrics.
Higher size numbers are for finer fabrics.

A winning combination of top quality needles in an all new exclusive Hemline consumer pack!

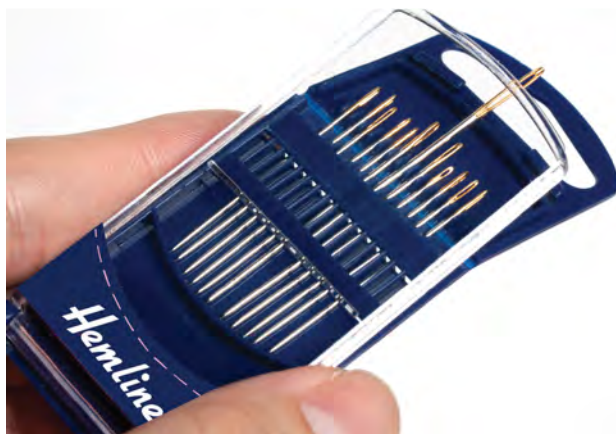

Premium Needle Features

- Harder and stronger, made from finely ground steel with smooth finish plating
- Manufactured to a hardness factor of 58-62 degrees with a very solid quality to increase consumer confidence
- A lower angle on the point ensures piercing fabric is as smooth as possible
- Smooth gold eyes ensure threads are not damaged at any time
- Manufactured to ISO9001 standards for over 50 years by Japanese expertise

Exclusive Consumer Pack

- Combines these top quality needles with an easy to use, fun to handle, and very strong consumer pack
- Removing and replacing needles has never been easier
- Flip-top back gives easy access to the needles which simply slide in and out
- Snaps tightly closed so needles cannot slip out. No need to worry about losing them or keeping them safe
- Permanently labelled for easy needle identification

Embroidery/Crewel - Gold Eye

	# 280G.17 Size/Type 1-7 Qty 16 Pack 5 	# 280G.510 Size/Type 5-10 Qty 16 Pack 5 
	# 280G.8 Size/Type 8 Qty 16 Pack 5 	# 280G.39 Size/Type 3-9 Qty 16 Pack 5 
	# 280G.9 Size/Type 9 Qty 16 Pack 5 	

• These needles have a longer eye and are ideal for threading stranded cotton. Otherwise, they are the same length and have the same point as standard needles.

Tapestry - Gold Eye

	# 283G.18 Size/Type 18 Qty 6 Pack 5 	# 283G.20 Size/Type 20 Qty 6 Pack 5 
	# 283G.24 Size/Type 24 Qty 6 Pack 5 	# 283G.1822 Size/Type 18-22 Qty 6 Pack 5 
	# 283G.22 Size/Type 22 Qty 6 Pack 5 	# 283G.26 Size/Type 26 Qty 6 Pack 5 

• Tapestry needles have a blunted end to pass through needlecraft fabric and canvas without damaging the weave. They also have a longer eye to thread the thicker yarns used in many crafts.

Bias Makers Consumer Guide

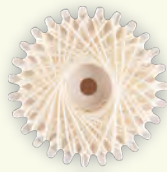

1. Bias Tape Makers help to make strips of bias tape/binding quickly and easily
2. The width of the Tape Maker indicates the width of the finished bias tape/ binding
3. To make the tape, cut a strip of fabric twice the width of the Tape Maker's narrow end, and then feed this into the wider end. Pull the fabric gently through the narrow end and press it lightly as it comes out.

Size/Type Size 3
Qty 3 sets
Pack 5
Colour Grey

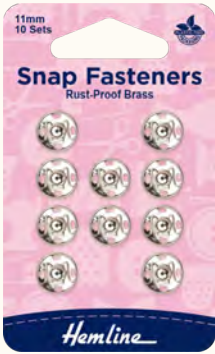

- Metal components covered with soft polyester thread.
- Used as decorative fastenings on garments, especially outerwear and coats.
- Lie flat and provide a strong closure.
- Supplied in reusable plastic box.

Hemline Hooks & Eyes

- All standard Hemline Hooks & Eyes are made from BRASS to ensure they will not rust
- Reusable plastic storage boxes store remaining hooks and eyes for future projects
- **RETAILER TIP:** Make sure your customers always use a good quality thread to attach hooks and eyes: poor quality threads will fray over time against the metal and break, destroying the closure.

- For use with Anorak/Jacket Snaps.
- Use to apply snaps to garment.

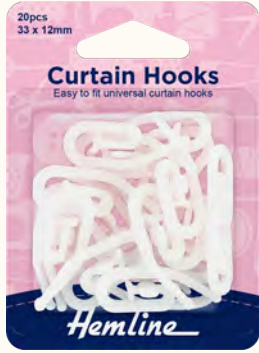

Hemline Snap Application

When fastening snaps and eyelets at home please note the following helpful tips

- Always mark the position of the snaps or eyelets before punching any holes or fixing snaps. Mark the positions of both the top and bottom to make sure they line up together. Use a fabric marker, or make a small hole with a tailors awl to do this.
- When working with snaps and eyelets it is essential to work on a very solid surface. The surface should have no "spring" as this interferes with the power needed to close the eyelet or snap effectively. Ordinary tables are often not solid enough: if possible, work on a well-supported work bench or kitchen top.
- Keep the head of your hammer perfectly flat. Hammering at an angle will cause the snaps or eyelets to close unevenly. Hammer steadily and slowly, and listen carefully as the sound will deepen as the snap or eyelet closes. It is important not to hammer too strongly, so check the amount of closure regularly.
- Always place a layer of interlining or lightweight fabric between your tools and the snap or eyelet if you are using metal fasteners. This will reduce the danger of scratches to surfaces when fasteners are being applied.

All New Hemline "Soft Loop" Sew On Hook & Loop

Hemline Velour Hook & Loop now has all new soft sew on loop tape. The new low lint loop is softer, much easier to sew, super comfortable to wear, has a softer hand feel and reduces lint. Can be machine washed and dry cleaned. A great improvement from traditional stiff nylon Hook & Loop and a great alternative to buttons, zips and studs on your delicate and lightweight to mid weight fabrics. The fastener is gentle on the skin so perfect for baby toys and clothing. With a pliable low-profile finish, it drapes and flows with your fabric for a seamless look. This product can be machine washed and dry cleaned. Suitable for use on most delicate and lightweight fabrics including polyester, poly-cotton blends, cottons and nylon.

All New Hemline "Soft Loop" SEW & STICK Hook & Loop

Hemline Velour new soft loop sew & stick tape makes it simple to attach fabrics to hard surfaces. The new low lint loop is softer, much easier to sew, super comfortable to wear, has a softer hand feel and reduces lint, combined with the latest injected hook tape provides much stronger hold. The loop tape can be machine washed and dry cleaned.

Featuring a higher quantity of hooks per cm / inch, with industrial strength adhesive back suitable for most hard surfaces. Applications are quick, easy and practical, replacing the need for nails, pins, tacks or glue. The stick on hook tape adheres to most smooth surfaces indoors including wood, metal, glass, cardboard and plastic. The velour tape is suitable for use on most delicate and lightweight fabrics including polyester, poly-cotton blends, cotton and nylon.

All New Hemline "Soft Loop" Stick On Hook & Loop Tapes and Dots

Hemline Velour Soft Loop Stick On Hook & Loop Tapes and Dots are perfect for attaching items indoors. The new low lint loop is softer, has a softer hand feel and reduces lint. The latest plastic injected hook tape features a higher quantity of hooks per cm / inch, with an industrial strength adhesive back ensuring a much stronger hold.

This tape is used to hang framed prints, mirrors and other decorative items around the house quickly and easily with no fuss. It is also great for use with fabrics that do not need machine wash, such as curtains and blinds. It is suitable for use on most smooth indoor surfaces including plastic, metal, glass and painted walls.

- Ideal for fusing fabric, felt, denim, leather, suede.
- Draw on paper backing to easily design appliqué pieces.
- Machine washable.

Interfacing: Iron-On

784
Size/Type 1 x 1m /
 40" x 40"
Qty 1 sheet
Pack 5

- Ideal for cuffs, collars, hems etc.
- Medium weight.

Heat' n 'Seal

820.L
Size/Type 74 x 69cm /
 30" x 27"
Qty 1 sheet
Pack 5

- Heat' n 'Seal - Lite Hold.

820.U
Size/Type 56 x 90cm /
 22" x 35 4/9"
Qty 1 sheet
Pack 5

- Heat' n 'Seal - Ultra Hold.

- Bonds fabric simply and easily by ironing.
- Suitable for fabrics, felt, cardboard, leather, ceramics, etc.
- Ideal for applique and craft.

Fusible Web - Paper backed

820
Size/Type 55 x 33cm /
 22" x 13"
Qty 1 sheet
Pack 5

- Popular paper backed fusible web.
- Ideal for applique and craft.
- Melts when heated with an iron.
- Place between 2 layers of fabric and heat to fuse them together.
- Removable paper backing helps when applying badges, motifs, and patches.

Fabric Stabiliser - Water Soluble

845
Size/Type 73 x 100cm /
 29" x 40"
Qty 1 sheet
Pack 5

- Transparent stabiliser which makes a great embroidery backing or topping.
- Designed for use with delicate or stretchable fabrics, and high pile fabrics such as terry cloth.
- Use for freehand embroidery, lacemaking, or any other project that requires complete removal of the stabiliser.
- Washes away completely when dissolved in water, without leaving a sticky residue or stiffened fabric.

Fabric Stabiliser: Sew-In

840
Size/Type 90 x 56cm /
 35 1/2" x 22"
Qty 1 sheet
Pack 5

- Medium weight.
- Top quality two way tear stabilizer for machine embroidery. Supports your fabric while you sew.
- Perfect for backing fabrics to be embroidered on machine. To be sewn just inside the seam line so no stitching will show on the outside of the garment / costume.

Fabric Stabiliser: Iron-On and Tear-A-Way

841
Size/Type 90 x 50cm /
 35 1/2" x 19 3/4"
Qty 1 sheet
Pack 5

- Lightweight.
- Fusible / Adhesive lightweight to add support to fabrics while sewing, removes easily afterwards. Simply tears away.
- Pre-wash the fabric before fusing.

SCISSORS

Dressmaking Scissors / Pinking Shears / Embroidery Scissors /
Hobby Scissors / Thread Snips / Titanium Scissors / General Scissors

Hemline

Sold globally, Hemline haberdashery has established itself as a household favourite. With its easily recognisable pink packaging the Hemline brand has a strong presence across the market.

Looking after your scissors

Caring for your scissors is key, here are our top tips.

Wipe down your blades with a clean, dry cloth after every use. This will stop a build up of fibres.

Oiling your scissors will keep your cuts smooth and rust at bay. How often you need to oil will depend on how often you use them. You can use sewing machine oil and make sure your cloth is soft.

Storage is something often overlooked, ideally blades should be wrapped, keeping scissors loose in a drawer can cause scratches and nicks to the blades.

Sharpening. Paper will dull any blade so be sure to keep general use and fabric scissors separate. However when the time does come, we have a fantastic Hemline scissor sharpener.

NEW Environmentally-Friendly Packaging

We have made some big changes to our packaging and removed single use plastic from the majority of these scissors! That adds up to over 400kg plastic saved per annum. That's equivalent to a grand piano!

Main features highlighted

Making it easy for your customers to pick the correct scissors.

Reinforced points

Not only stronger packaging, but keeps the product looking fresh for longer.

Multilingual card

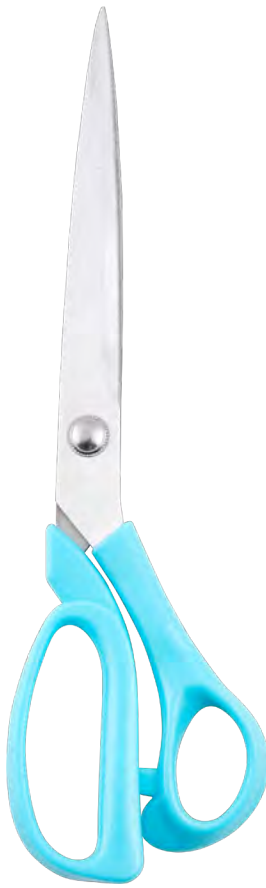

English, French, Spanish, German.

Plastic free packaging

All new look packaging is plastic free and can be recycled.
