Complete Needlecraft Collection 2025

DIMENSIONS®

We're in an age where needlecrafting is undeniably cool. It can be nostalgic but it seems that mixing the old with the new is one of the things that today's crafters do best.

At Dimensions we offer designs for all those enthusiasts (and beginners, too!) looking to enjoy the rewards of needlecrafting. Our complete collection for 2025 includes all that we have to offer.

There's something for everyone—cross stitch, embroidery, needlepoint, punch needle. And we've included all of our holiday needlecraft kits for those who stitch year-round.

LARGE cross stitch

Cross stitch is a perennial favorite of needlecrafters who enjoy seeing a design come to life on blank fabric. Our talented artists translate original artwork into counted charts, selecting each thread color and interpreting the shading and details that make each design look so realistic.

Latch hook is easy. With the full-color printed canvas, just fill in the areas of color. No counting necessary! Each kit includes a fully printed color canvas, an assortment of pre-cut yarn colors, and easy instructions. (latch hook tool sold separately)
