crystal finish

Finish Glass

79 640 01 Finish Glass, epoxy resin + hardener, 13,5 x 16,5 x 7 cm, 2 parts / 500 + 250 ml SQ: 1 Set

The Kit Finish Glass Cernit is a 2 component epoxy resin based transparent varnish. The resin has a smooth and glossy finish with no bubbles. As the name shows, the resulting hardness and transparency give to your piece a glass-like aspect.

It is possible to colour the resin with solvent-based colours such as the Darwi Glass paints. Even in thick layers, the Kit Finish Glass will create well-levelled surfaces.

Cernit Glue

79 590 00 Cernit Glue, 80 ml

☒ ⓪ SQ: 5 pc

Strong adhesive for raw and baked polymer clay

- must be baked (max. 130°C during max. 30 min.)
- Cernit Glue is used to glue your realizations of polymer clay (raw, baked or a mixture of both) together.
- It can also be used to bond polymeric clay with other porous or non-porous materials.
- Glues effortlessly, a light pressure is enough to glue the different parts together without damaging them

Core functionalities of the e-mark

Colour Imprints

The e-mark is equipped with a tricolour ink cartridge (ink jet), which makes printing in any colour combination possible. Given the cooperation with HP Inkjet Technology, the e-mark contains a cartridge with the most modern printing technology. One cartridge holds up to approx. 5,000 imprints (with a print size of 14 mm x 100 mm and a colour coverage of 15%).

Customised imprints

In the editor studio of the e-mark app you can easily add text, logos and images to your imprint.

Imprints of multiple lines

Imprints can contain up to three lines, which can be printed in one go, without lifting the device from the surface.

Sequential marking

Imprints can be set to print sequentially so that one will print after another automatically.

Continuous marking

The continuous marking feature allows you to repeatedly print the same imprint without having to lift the device from the surface.

Personalised labels

COLOP e-mark labels are perfectly suited to the dimensions of the e-mark, making it possible to make adhesive labels with uniquely designed imprints.

Various additional accessories

COLOP offers a wide range of accessories such as different label forms, cotton ribbons or wrist bands. The Ribbon Guide, for instance, provides a practical accessory for exact handling and positioning of the e-mark on ribbons and other surfaces.

Printing on various surfaces

With the e-mark you can print on a variety of absorbent surfaces, including books, paper, cardboard, napkins, wood or cork. In combination with the COLOP e-mark label sheets, even non-absorbent materials can be marked easily.

Compact and mobile

The e-mark is portable and can be easily transported in a briefcase, handbag or suitcase, ideal for printing on-the-go. It can be operated via mobile devices, such as mobile phones and tablets.

Two products that look similar, but are quite different in their range of application. Here is a comparison of the features of the e-mark and the e-mark create.

Key Features 47 500 01 / 02 / 05 / 06

- Multi-colour printing in 600 dpi
 - Customisable imprints
 - Templates available in app and on website
 - Light strip for device status
 - Optical sensor for best quality imprints
