craft of two hands'. Since those early years, generations of stitchers have kept this ancient craft alive and today, in the 21st century, this craft has been enriched with a new name: embroidery. Lanarte and Emilie Vergnes' small studio in France became synonymous with exclusivity and quality, occupying a leading position in the craft world. Over the years, Lanarte designers developed their exclusive style, from the early days of the company to the present day. This creative thrust and further development led to a production of over 1000 designs per year, each inspired by the pursuit of excellence and quality is only possible if you are constantly seeking out the best materials and techniques available. Lanarte is proud to be a world class brand, and we guarantee the success of Lanarte designs, which are timeless and stylish. Lanarte is more than embroidery, it is enveloping and creative.
